EMBRC-Italy - access call

EMBRC-ITALY LAUNCHES ITS CALL FOR FUNDED ACCESS

To celebrate the launch of its new website and a renewed service catalogue, EMBRC-Italy launches an **Access Call to fund excellent research projects** aimed to access marine ecosystems and to make use of services for marine biology and ecology.

This Access Call **enables researchers to apply for funding to access to research services** offered by selected marine biological research institutions of EMBRC-Italy (herein "Operators") for short projects.

EMBRC-Italy will sponsor funding to researchers for:

- access to the service of EMBRC-Italy (access to ecosystems, experimental facilities, technology platforms)
- reimbursement of travel (one round trip, economy class) for a maximum of 400€
- reimbursement of meals and accommodation (up to 28 days, weekends included) with an upper limit of 100€ per day, covering meals up to a maximum of 40€ per day.

Who can apply?

To apply for access to the EMBRC-Italy Access Call you must meet these eligibility criteria:

- You must work/study in an Academic Institution, or be employed by a not-for-profit organisation or registered company;

Call Closes:
15-Apr-2024 23:00
CEST

Click the button to begin your application for this call. Your draft applications will also appear here as well as on your dashboard and can be continued at any point.

Aquaria and tanks at ENEA-LS

Access to aquaria (50 L) and tanks (10 L) available for manipulative experiments on coralline algae and calcifying marine invertebrates/ecosystems

Coastal research vessels at ENEA-LS

Access to coastal research vessels for exploration of coastal marine sites in natural areas including Natural Regional Park of Porto Venere and the islands (Palmaria, Tino) and the Cinque Terre National Park and impacted areas (La Spezia port). Access to Smart Bay Santa Teresa (<https://smartbaysteresa.com>).

Data sets at ENEA-LS

Access to physical-chemical-biological data sets for the area (Gulf of La Spezia) including those from LTER Data Macro Site IT 15 and Smart Bay Santa Teresa observatory

Click HERE to continue the proposal

The Proposal can have only one main applicant

Submit a proposal

Your draft proposal has been assigned a PID: 30327

Team members

Main applicant

 Giorgio Maria Vingiani 

If you, the applicant, are not the selected 'Main Applicant', the system will send an automatic message for authorisation of the proposal. Please note that the user profile will be the reviewer's main source of information about the applicant and team.

Other team members in the proposal

In addition to the applicant indicate other members that will be part of the research project. Only scientists mentioned in this section will be eligible to access facilities (if applicable) if the proposal is approved. Please note that the user profile will be the reviewer's main source of information about the applicant and the team. All team members you add here will be sent an email asking them to confirm that they are participating on this project.

Proposal Guidelines

Click on "Begin a new proposal" (in the left column) and then follow the steps below.

Step 1: select the services required for your experiments. To refine your query you can use filters (country, institute or service category). Click on "Select service" to add it to your proposal. To add another service, go to the following step and then click on "Add another service".

Step 2: confirm the services you have requested. If a service is offered also by remote access (i.e. your experiments do not need your presence at the premises of the institute and can be performed by our technicians), you can select this option here. Remote access is not available for all of our services.

Step 3: enter details of your request. Click on "?" for more specifications or suggestions about each field.

Click on "Save proposal" to save a draft of the proposal, as filled so far. In case you want to work offline on the proposal, you can find here the [EMBRC access request template](#).

Click on "Save and continue" to go to the next step.

Step 4: add team members working with you in this proposal.

- Main applicant: it is you.
- Other team members in the proposal: a member of your team or a colleague who will
